

PSYCHE SCRAPER

Embark on a daring mission on one of the largest asteroids in the Solar System! Venture cross the surface of this strange world to gather resources and learn about this magnificent relic of our Star System's past to help answer questions about our own world's origin. (do more stuff that alludes to Psyche's mission).

The name of the game is Score Attack: you have three minutes to get the best score by collecting pickups of minerals and scientific data. Run and jump your way across Psyche to pickup as much as you can and beat the high score.
